Gayatri Parivar invites you to participate in this noble mission of “Thought Revolution” for nation building, following the path of personality development, family development and society development

Divine practice of knowledge, work and worship

As we change, the Era will change
After the political revolution of 1947, our country is celebrating the platinum jubilee of our independence. 75 years after this revolution, today we are witnessing an economic revolution. All-round growth of any country is only possible with the active contribution of every citizen. General public, is the unquestionable strength of the country and if it is awakened, then this growth can definitely be achieved. General public can contribute their time, money or skill to help the country achieve this objective.

All World Gayatri Parivar - Established by the Saint, Scholar, Philosopher & reformer Pandit Shriram Sharma Acharya and currently managed by Dr Pranav Pandya, All World Gayatri Parivar today is spread over 80 countries with almost 100 Million followers. The organization is conducting programs for family welfare, human welfare and world peace based on the ideal principles of culture of art of living.

Gayatri Ashwamedh Mahayagya - In ancient times, Ashwamedh Yagyas were conducted to establish Geo-political dominance using weapon power, however this dominance was temporary. Gayatri Ashwamedh Yagyaa is an initiative of Yug Nirman Yojana of Gayatri Parivar. This is being done to achieve the vision of Vasudhaiv Kutumbakam, through the medium of Vichar Kranti Abhiyan (Thought Revolution) and Gyan Yagya. This concept of one world, one thought and one religion can only be achieved by bringing the thought revolution in mankind.

Till date, 47 Ashwamedh Yagyas have been performed across the world, including those in USA, Canada, Australia, New Zealand and South Africa.

Gayatri Teerth Shantikunj Haridwar - Amid shadows of the Himalayas, Gayatri Teerth Shantikunj is the spiritual abode of millions of Gayatri followers. This Gayatri teerth is rejuvenated by the energy of Yug Rishi, Pandit Shriram Sharma Acharya and Mata Bhagwati Devi Sharma. This lively teerth helps to keep the body, mind and soul healthy by providing healthy environment, right direction and mental strength.

A unique combination of Spirituality and Science, Gayatri teerth is a consciousness centre which inspires common people to work for human welfare, social welfare and world welfare while leading a normal family life.

Yug Nirman Yojana ( Era reconstruction plan) and Vichar Kranti (Thought Revolution) Abhiyan - The objective of Yug Nirman Yojana is to awaken mankind to build healthy body, healthy mind and a civilized society. The base for the Yug Nirman Yojana is its Thought Revolution Program because only change of thoughts can help to create a better human being and in turn a better world. There are two paths in his thought revolution-First, to create people with pious and high thinking and second, to remove the superstitions and wrong practices from the minds of human beings. Youth, intellectuals, women, well to do individuals and all other citizens can invoke their talents and can join this program to bring a visible change in the world.

Contribution of this Mahayagya to your life - Nothing in this world will be more satisfying for a human being, than doing something positive for the society, which can bring collective peace and order in the world. Everybody doesn’t get this privilege of doing something for the society. This will invoke your conscience which will play a bigger role in rebuilding the society, the country and the world. The society and the whole world will always remain indebted to you.

“O brave heart sons of Bharat Ma, do believe that you are born to do many great deeds in this world.”

Swami Vivekanand-

How can you contribute to this Mahayagya for rebuilding the society- Every human being is the creator of his own destiny. Only conscious, lively and devoted people can create a new era. Pujya Gurudev has planned this in three steps - Publicity, Creativity and Confrontation. People from all walks of life can combine their talents and devote their time, knowledge, education, skill or finances and participate in this noble cause. The beginning of this rebuilding has to start from every individual, leading to a social revolution and then scale it up as a world wide movement. We have to use our talents to awaken the common man.

An appeal to all the awakened people for their support-

Youth - Adopt the good practices and publicise and propagate them
Educationists - Propagate moral education and create awakening against superstitions and wrong practices
Well to do persons - Support creative programs for social upliftment with their financial support.
Intellectuals - Co-operate in creation of a civilized and cultured society
Artists - Use their art to publicise and propagate cultural reforms
Social Activists and Organizations - Eliminate malpractices and superstitions from society, help in self employment of people and promote humanity
Women - To establish practices inspired by spirituality in family and society
Scientists - Work towards social upliftment by merging science and spirituality
